MADE FOR HIT

PRODUCT CATALOG

Dear customers,

we are truly pleased with your interest in our products. You should know we put great effort into making durable, high-quality, functional products. We have ample experience in making weapons and in the manufacturing process, each of our guns goes through hands of many of our employees. As a result, each gun is unique.

The gun factory ALFA-PROJ was established in 1993 as a Czech limited liability company. Its scope of activity includes production and trade and the company currently gives work to 57 employees in its production and trade facility in Brno, the Czech Republic. The company has produced short arms since its beginning. The short arms range includes blank-firing revolvers and low muzzle energy revolvers as well as revolvers in calibres from .22 LR to .357 Magnum and revolvers for pistol ammunition in calibres 9mm Luger and 9mm P.A. Rubber, too. Since 2002, ALFA-PROJ has been manufacturing Combat and Defender pistols in calibres from 9mm to .45 ACP. The company enhanced its production also with PCP and CO₂ arms in 2004. Currently, these include pistols and rifles for shooting sport.

The annual capacity of the company is about 25,000 units. ALFA-PROJ spol. s r.o. is the second largest company in production of short arms in the Czech Republic. At the same time, the company produces handcuffs in various modifications. The handcuffs production capacity is 30,000 pieces a year. The arms are exported worldwide under the

brands ALFA and various exclusive local brands for our large customers. Since being founded, ALFA-PROJ spol. s r.o. has followed the Czech tradition of arms production, which is world known and whose history dates back to the period prior to the World War One, then to Czechoslovakia and now continues in the Czech Republic, particularly in Brno.

Along with selling its own products, the company runs a retail and wholesale trade of a broad range of arms and ammunition. It has also regularly been invited to tenders in international markets. In recent years, ALFA-PROJ spol. s r.o. has succeeded in a number of tenders and consequently equipped national police corps of various countries with its arms and/or handcuffs.

Since 2002, the company has been certified in accordance with ISO 9001: 2000 Standard. ALFA-PROJ spol. s r.o. desires to continue maintaining and developing the arms-making tradition in Brno – the city that has been synonymous with quality arms industry since the beginning of the twentieth century.

ALFA STEEL
.357 Magnum

.357 MAGNUM / .38 SPECIAL

The .357 Magnum revolvers were designed to meet the requirements of the most demanding users from the ranks of armed forces, private security agencies and citizens who take their security seriously.

The high .357 Magnum cartridge output in combination with our revolver form a reliable weapon system for all emergency situations. The drop-down safety protection and the all-steel frame guarantee a high level of safety when carried in any conditions. The accuracy

and output of the six-inch version is suitable for hunters using short guns. The .38 Special revolvers are intended for demanding sports shooters and customers who prefer the traditional accuracy and low recoil of the .38 Special shot. High-strength steel guarantees a long life of the weapon even at frequent sports shooting. The full weight of the gun and low recoil are appealing features for defensive and service use as well.

9mm Luger

.32 S&W / .22 WMR / .22 LR

High-precision revolvers for maximum delight and pleasure in shooting. The all-steel frame and the precise workmanship guarantee excellent shooting results over long time. The full weight of the gun and low recoil are appealing features for defensive and service use of .32 S&W revolvers.

The gravity centre position and a very low recoil of the .22 WMR and .22 LR are suitable for the training of beginner shooters. The larger cylinder capacity of the .22 LR revolver is also advantageous for action shooting training. An optional replaceable .22 LR cylinder is available for the .22 WMR revolver.
